

# FARMER FAMILY

SAVE THE FAMILY WHICH SAVES YOU

AGRICULTURE AND RURAL DEVELOPMENT

# WELCOME TO OUR PRESENTATION

To avoid the wastage of cultivated fruits and vegetables from an unexpected natural environmental changes.

AGRICULTURE AND RURAL DEVELOPMENT

## OUR CONCLUSION

To use auction in healthy way for avoid loss for farmer and broker.

The broker bids money between market price and farmer price.

AGRICULTURE AND RURAL DEVELOPMENT

## PROPOSED SOLUTION

Instead of wasting the food we are finding an alternative so that the profit doesn't matter

AGRICULTURE AND RURAL DEVELOPMENT

# UNIQUE SELLING POINT

As the application gets a reach, the number of brokers will be more, so the profit gets multiplied

AGRICULTURE AND RURAL DEVELOPMENT

## REVENUE MODEL

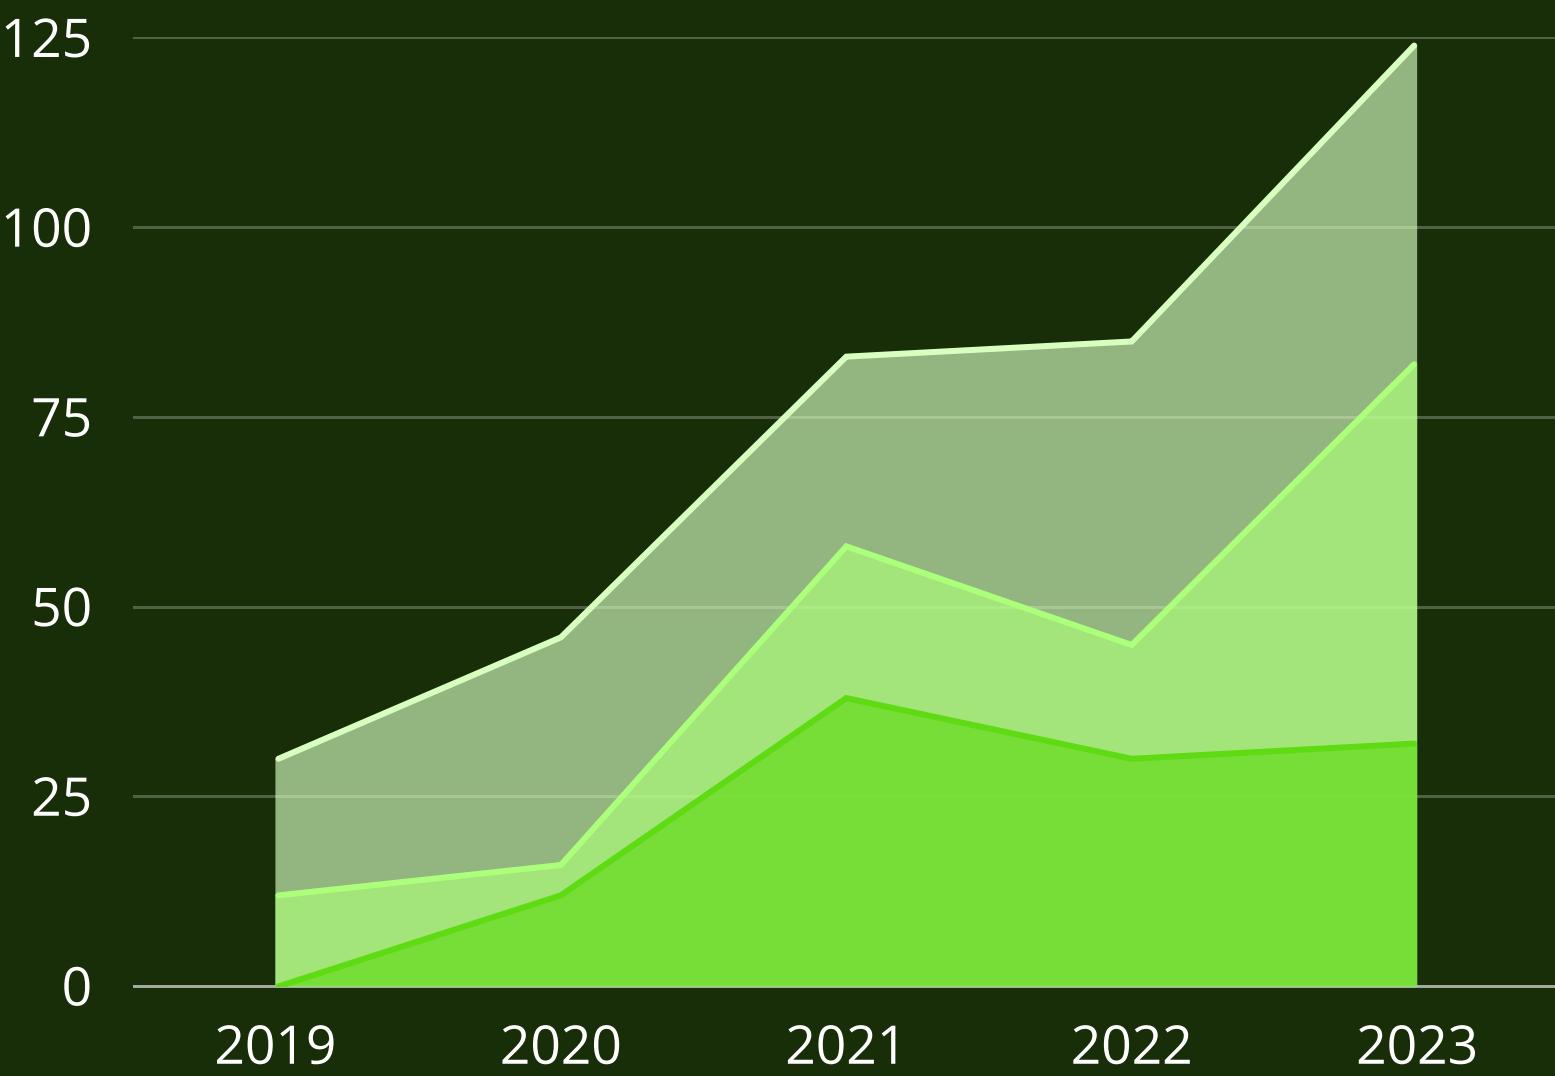

At the starting stage, the commercial markets

While the regular bidders are increased, they'll be recommended for more auctions

AGRICULTURE AND RURAL DEVELOPMENT

# ABOUT MARKET SIZE

It depends upon every season harvested on several crop fields

A close-up photograph of two hands, one adult and one smaller, holding a small green seedling with four leaves in dark brown soil. The hands are positioned in the upper left corner of the frame, set against a dark, textured background.
